.380 Auto jacketed hollow point 95 grain	18.3
.32 Auto jacketed hollow point 71 grain	11.1
.22 Long Rifle jacketed hollow point 40 grain	4.2
.25 Auto jacketed hollow point 50 grain	3.7

\* Jacketed hollow points will have the same rating as wad cutter bullets if the bullet hollow tip is greater than 1/2 of the caliber of the bullet.

\* .357 Magnum ratings are taken from a firearm with a 3 inch barrel. Longer barrels will raise the rating of the round.
